## Specification Sheet: Precision H<sub>2</sub>O Portfolio Brick

Date: 9/2019

**Size: 2.5" x 7.5" | 48 pcs. per box | 37.5 lbs. per box | 7.11 sq. ft. per box | 6.75 pieces per SF**

*Testing Data: Portfolio Brick as related to ANSI A137.1 Section 7 Specialty Tile*

Product is "Extruded", "Natural", Class E4, WALL Only

Recommended Grout Joint: standard brick industry grout joint (3/8") or smaller grout joint - project permitting

**Sealing Tile:** It is recommended to seal prior to grouting with a penetrating sealer

*Not recommended for (steam) shower wall installations*

**Tile Edge:** "Rustic" intentionally given a frayed or torn characteristic

**Surface Aesthetic:** Tile to be structurally sound but may have random drag lines, holes, and folds

**Nominal Size:** 2.5" x 7.5" Max / Min range  $\pm$  4%, (can range from 4% smaller to 4% larger)

**Warpage Edge:** Max / Min range  $\pm$  1.5%

**Warpage Diagonal:** Max / Min range  $\pm$  1.5%

**Wedging:** Max / Min range  $\pm$  1.5%

**Thickness:** .45" (~29/64th) , range .0625

**Absorption:** 7%-20%

**Color Uniformity:** V2 – V3 Slight to Moderate variation dependent on color choice

**Crazing Resistant:** All colors are crazed and should be sealed.

**SCOF:** Tile is not suitable for floor applications

**Breaking Strength:** 80 LBF. Standard ceramic wall tile is 100 LBF-125 LBF

**Freeze / Thaw:** Not suitable for exterior installation in freeze thaw climates

**Setting and Grouting Materials:** Latex Portland cement, Mastic, or Epoxy. Care should be taken in grout color selection as tile surface will grout grab and may be very difficult to clean thoroughly.

**Cleaning:** Accomplished with PH neutral soap and water
